Re: Establishment of the Chancellor's COVID-19 Mental Health Task Force

Cc: Board of Regents

Emotional and mental health is often an overlooked and under-resourced issue that impacts every aspect of our lives, and the ability of students and employees to learn, work, and live within the NSHE community. With the onset of the COVID-19 pandemic, these concerns have only increased. During the COVID-19 pandemic, an unprecedented amount of uncertainty about the present and future, combined with frequent isolation, disjointed methods of communication and learning, heavy workloads, fear of a family member or loved one becoming ill, and financial hardship has increased the level of stress, anxiety, and grief felt by students, faculty, and staff within NSHE. For many, the ongoing racial injustices witnessed in our communities is also a source of distress, and one we must address as we seek to support each member of the NSHE community.

To respond to these important emotional and mental health challenges, I am hereby forming, pursuant to Title 2, Chapter 1, Section 1.4.11(a) of the *NSHE Code*, the "Chancellor's COVID-19 Mental Health Task Force."

The Task Force will be an internal working group charged with making recommendations to me on how NSHE can better (1) address the emotional and mental health needs of NSHE students, faculty, and staff not only for the short-term emergency issues we are facing for the Spring/Summer 2021 Semesters brought on by COVID-19; but also to make recommendations on how NSHE can (2) implement long-term changes necessary to lead in these areas, so that emotional and mental health conversations become an integral part of our higher education culture and utilization of strategic resources. The Task Force shall also (3) identify the resources currently within NSHE, as well as those available through local, county, state, federal, and nonprofit entities, that are available to address these needs; (4) develop a strategic plan on how to communicate information and outreach to NSHE students and faculty on how to get assistance from these resources; and (5) make recommendations on how to improve mental health awareness, services, and resources provide to NSHE students and faculty.

I have asked each NSHE institution to nominate individuals who bring diverse expertise, training, and perspectives in this area to serve on this Task Force. Accordingly, these members are the following:
